

Official Odoo Partner
"We trust Odoo since 2010."

Versada

We boost business efficiency with Odoo

We seek to help enterprises digitize their business processes and improve employees workflows with Odoo ERP. Since 2010, we provide highly professional Odoo solutions, one of the top Enterprise Resource Planning (ERP) tools today.

We have grown to experienced and international team who will take care of your project from scratch and help you to have successfully implemented ERP system.

Our Services

Odoo Consulting

Odoo Development

Odoo Integrations

Odoo Support & Maintenance

Our Project Approach

► Agility

Agile project management helps to adapt to change quickly and deliver solutions fast.

► Proof of Concept

The method which helps to evaluate the system by implementing a small part of it.

► Full Support

We will take full care of support and system maintenance after it is implemented.

► Workshops for Analysis

Workshops for analysis help to see the full picture when choosing ERP.

► Solution based on added value

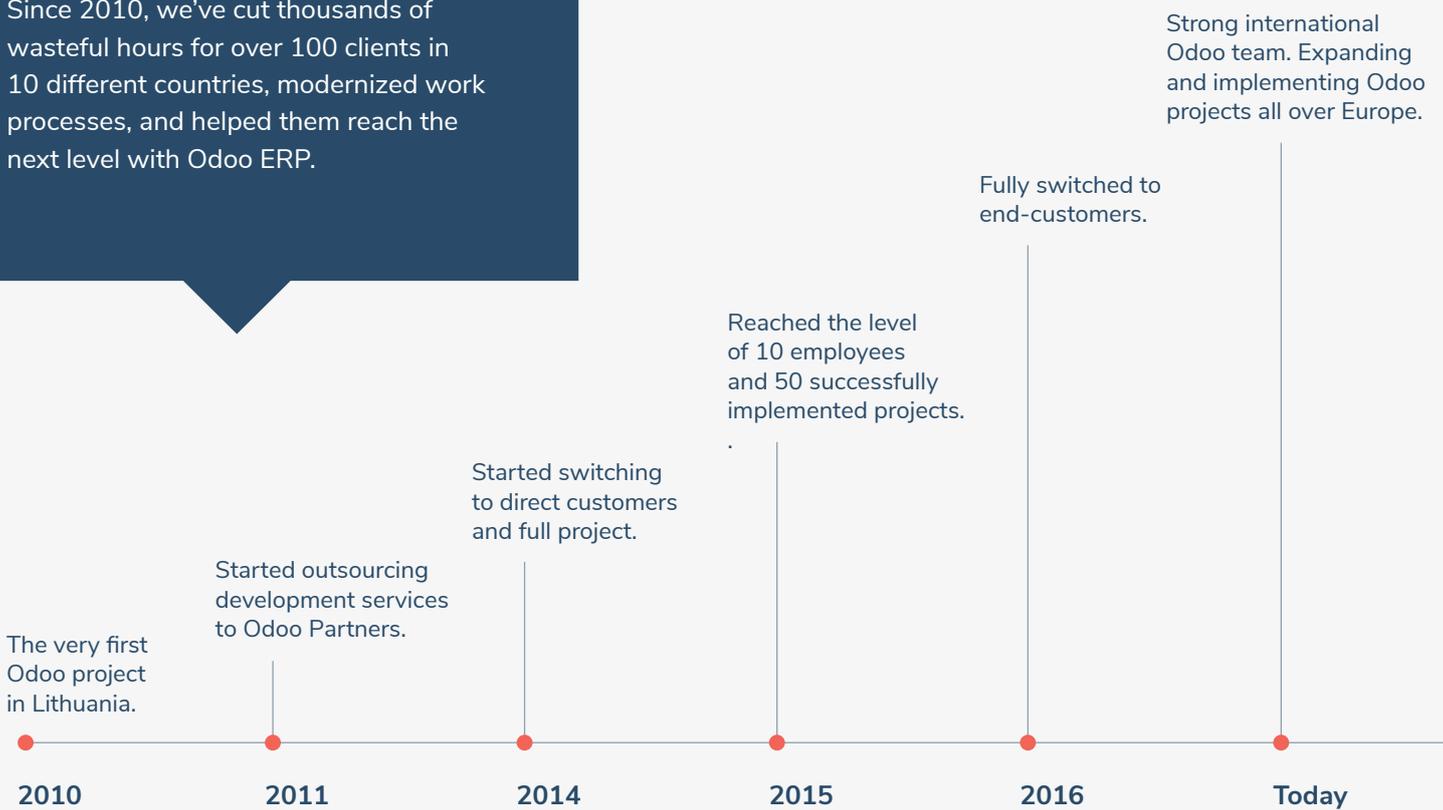

We are creating Odoo solutions based on added value for our clients.

► Shared Vision

Having a clear and shared vision about outcomes leads to both side success.

Our History

Since 2010, we've cut thousands of wasteful hours for over 100 clients in 10 different countries, modernized work processes, and helped them reach the next level with Odoo ERP.

Trusted By

I would like to highlight the professionalism of the Versada team, the high level of work they do, the technical skills of the team and its quick response in the realization of the whole project. With confidence, we can recommend Versada to any organization that has difficulties with optimizing manufacturing processes or needs a partner to implement non-standard solutions in the Odoo ERP system.

Guillaume de Troostembergh,
LPW Corporate, Belgium

We have been working with Versada since 2016. We were able to remove a number of internal tools, automate manual processes, run various business support reports and tailor the tool to our needs with professional access and custom solutions. Through Odoo we are connected internationally within Martes Specure. We really appreciate the collaboration with Versada.

Ing. Michala Cipková,
Martes Specure International, Austria and Slovakia
